

Delph INS 3.5.0 - Release Notes

These Release Notes detail improvements and bug fixes from Advanced Post Processing Software 2.4.1 to Delph INS 3.5.0

Please read these notes carefully before installing the software.

1 What's new

1.1 Improvements

- New interactive export template assistant: this graphical tool allows the user to quickly and easily define how to export any data to be used outside of Delph INS
- Faster display performance with timeView and planView
- New Xpf file differences tool: This tool is used to compare the content of 2 Xpf files
- iXblue GNSS processing: Postprocessing of any Rinex file to improve the INS/GNSS
- User guide now in HTML format

1.2 Bug Fixes

- GNSS lever arm calibration results
- Synchronized output label
